PROFESSIONAL SUMMARY

Dedicated ICT Specialist and Cybersecurity student with 6+ years of hands-on experience in IT support, hardware/software maintenance, network troubleshooting, and data management. Currently pursuing a Diploma in Cybersecurity at UCAS while actively volunteering with the Palestinian Red Crescent Society (PRCS). Holds multiple Cisco Networking Academy certifications including Introduction to Packet Tracer and Getting Started with Cisco Packet Tracer, along with certifications in Linux, Java, and Offensive Security. Proven ability to deliver technical solutions under pressure with a track record of supporting large-scale humanitarian operations.

PROFESSIONAL EXPERIENCE

ICT Specialist (Volunteer) — *Jan 2024 – Present*
Palestinian Red Crescent Society (PRCS) — Khan Younis, Gaza Strip

- Provided direct and remote technical support to employees, resolving system and network-related issues efficiently.
- Contributed to maintenance and management of IT infrastructure, ensuring continuity of daily operations.
- Performed troubleshooting for hardware and software malfunctions across multiple departments.
- Assisted in implementing information security procedures and policies to protect institutional data.

Data Entry Clerk (Volunteer) — *Jan 2024 – Present*
Palestinian Red Crescent Society (PRCS) — Khan Younis, Gaza Strip

- Accurately entered and managed data in databases and spreadsheets with high precision.
- Organized digital records to ensure integrity, accessibility, and compliance.
- Conducted data verification and quality checks to minimize errors across all records.
- Supported staff with data-related requests to enhance operational efficiency.

IT Technician & Programmer — *Jan 2019 – Present*
Self-Employed — Khan Younis, Gaza Strip

- Performed advanced maintenance and programming for smartphones and computer devices.
- Diagnosed and resolved hardware and software issues for individual and business clients.
- Delivered onsite and remote technical support for various IT systems.
- Designed promotional materials and infographics using Canva for multiple clients.

Emergency Vaccination Campaign Worker — *Sep 2024 – Oct 2024*
UNICEF — Gaza Strip

- Participated in the national polio vaccination campaign across Gaza Strip.
- Managed logistics and coordinated with local health teams to ensure smooth field operations.

Security Guard (Volunteer) — *Sep 2023 – Dec 2023*
Palestinian Red Crescent Society (PRCS) — Khan Younis, Gaza Strip

- Ensured safety and security of premises and assets throughout all shifts.
- Monitored entry/exit points and responded to security incidents following established protocols.

EDUCATION

Diploma in Cybersecurity — *Jul 2023 – Present*
University College of Applied Sciences (UCAS) — Gaza Strip

- Key courses: Network Fundamentals, Cybersecurity Principles, Operating Systems, Information Security.

High School Certificate — *2022*
Haroun Al-Rasheed High School — Gaza Strip

PROJECTS

Library Management System — *2026*
Java — Personal Project — github.com/mahmoud-kullab/Library-Management-System-Java

- Built a Java console application using OOP principles (classes, encapsulation, ArrayList).
- Implemented full CRUD operations: add, search, borrow, return, and delete books.
- Added input validation and exception handling for a smooth user experience.

CERTIFICATIONS & TRAINING

Introduction to Packet Tracer — *Apr 2026*
Cisco Networking Academy
